

Declaration of Compliance with National and International Export Control Regulations

Applicant (= Employee in the research group)

Awareness of Export Control Regulations

I am aware that scientific results and data generated through the use of high-performance computing systems are subject to national and international export control regulations.

Contexts of Use

I hereby confirm that the intended use of the high-performance computer has no direct or indirect connection to one or more of the following contexts of use:

- Any connection to nuclear, biological, or chemical weapons, other nuclear explosive devices, or missile systems for such weapons, as well as related delivery technologies. This includes development, production, handling, operation, maintenance, storage, detection, identification, or dissemination.
- Any connection to civilian nuclear facilities.
- Any connection to military goods.
- Any potential (even if unintended) military end use.
- Any connection to digital communications surveillance.

Export Restrictions

I confirm that the data generated with the high-performance computer will not be exported to the following countries. This applies to both physical exports and any form of digital export, transmission, or provision:

Iran

North Korea

Russia

Reporting Obligations Regarding Embargoed Countries

I confirm that I am familiar with and will comply with the reporting process for collaborations involving embargoed countries

(<https://xss0.uni-muenster.de/intern/finanzen/exportkontrolle/index.html>).

In particular, I confirm that, in compliance with the relevant embargo-related reporting obligations, I will notify the reporting office in advance of any project partners from embargoed countries (see the country list in the link above) so that they can be checked through a sanctions list screening.

Personal Declaration

I confirm that during the past five years I have neither had a residence nor my habitual place of stay in the following countries:

Iran

North Korea

Russia

I confirm that I do not receive financial resources or other forms of support from the following countries:

Iran

North Korea

Russia

Cooperation with China

I am aware that any collaborations or research projects with partners from China involving goods or technologies listed under Categories 3–5 of the U.S. Commerce Control List must be reported in advance to Division 5.4 for review and approval. These categories include in particular electronics and semiconductor technologies (Category 3), computer systems and high-performance computing (Category 4), as well as telecommunications and information security including cryptography (Category 5).

Note

If you answer this declaration in whole or in part with “No”, please contact Division 5.4 so that the export control permissibility of the intended use can be reviewed on a case-by-case basis (exportkontrolle@uni-muenster.de).
